Doing a feature about Jamaat ul-Fuqra. They were founded by a Pakistan [redacted] Daniel Pearl was looking to speak to [redacted] when he was kidnapped. I am heading to Hancock, NY, where the Jamaat HQ is said to be to interview them. I am wondering if there is anyone in your office that can tell me about them. Are they still considered a threat? Is there any evidence to suggest Muslims of America INC is a front for ul-Fuqra? Am happy with any off the record, just for background info so I can understand who this group is. Over course, attributed quotes is even better. Thank you.
